Complaint Investigation & Resolution

Purpose: This policy is provided as a means to receive, investigate, and resolve complaints regarding licensees falling under the purview of the Medical Control Authority (MCA).

I. Definitions:

A. Allegation/Complaint Invalid:

The allegation or complaint was found to have no administrative rule or protocol violation or the protocol deviation was considered acceptable for the situation.

B. Allegation Valid Minor:

This can be viewed two ways:

1. The licensee's role in the administrative rule or protocol violation was small.
2. The result of the administrative rule or protocol violation had a minor effect.

C. Allegation Valid Serious:

This can be viewed two ways.

1. The licensee's role in the administrative rule or protocol violation was great.
2. The result of the administrative rule or protocol violation had a major effect.

D. Appeal Hearing:

A hearing to appeal an Order of Disciplinary Action. This hearing is to re-examine any new facts and/or review the incident to ensure due process has been followed.

E. Order of Disciplinary Action (ODA):

An Order of (ODA) is a written document developed by the MCA and sent to a subject licensee for the purposes of clearly and plainly identifying the findings of the MCA, any disciplinary action and any required remediation.

F. Complaint:

For the purpose of this policy, a complaint shall be defined as any notification of dissatisfaction or concern regarding medical care rendered by the MCA licensed EMS provider/agency, or any issues that involve the performance of the EMS system in whole or in part.

G. Due Process:

A course of formal proceedings carried out regularly and in accordance with established rules and principles

H. Formal Inquiry:

Formal inquiry means that a complaint has been found to either be valid, or that more detailed inquiry is necessary to determine the validity of the complaint; either of which will require that the subject licensee (individual/agency) be notified of the specific complaint. A formal inquiry may involve the gathering of incident reports which provide explanations for care rendered or justification for actions, as well as subject/witness interviews. Some information gathering may not necessitate a formal inquiry.
